

# INDEX TO VOLUME VIII

Allen, H. S. Commutative rings of linear transformations and infinite matrices . . . . .	39
— Rings of infinite matrices . . . . .	117
Arscott, F. M. Integral equations for ellipsoidal wave functions .	223
Besicovitch, A. S., and Eggleston, H. G. The total length of the edges of a polyhedron . . . . .	172
Brafman, F. A generating function for associated Legendre polynomials . . . . .	81
Buchdahl, H. A. Gauge-invariant generalization of field theories with asymmetric fundamental tensor . . . . .	89
Busbridge, I. W. On the $H$ -functions of S. Chandrasekhar . .	133
Cobbe, Anne P., and Taylor, R. L. On $Q$ -kernels with operators	13
Downton, F. A note on Moran's theory of dams . . . . .	282
Edwards, D. A. On the continuity properties of functions satisfying a condition of Sirvint's . . . . .	58
Eggleston, H. G., see Besicovitch, A. S.	
Everitt, W. N. Inequalities for Gram determinants . . . . .	191
— The Sturm-Liouville problem for fourth-order differential equations . . . . .	146
Freeman, J. G. Complete Finsler-Riemann systems . . . . .	161
Godwin, H. J. On quartic fields of signature one with small discriminant . . . . .	214
Horadam, A. F. A locus in [8] invariant under a group of order $51840 \times 81$ . . . . .	241
Kendall, D. G., and Moyal, J. E. On the continuity properties of vector-valued functions of bounded variation . . . . .	54
Kennedy, P. B. Fourier series with gaps (II) . . . . .	84
Krabbe, G. L. Spectra of convolution operators on $L^p$ and rings of factor-sequences . . . . .	1
Kuttner, B. Some remarks on quasi-Hausdorff transformations .	272
Marathe, C. R. A note on characteristic values of products of two matrices . . . . .	291
McCarthy, P. J. A congruence property of Ramanujan's function	141
Mirsky, L., and Rado, R. A note on matrix polynomials . .	128
Moran, P. A. P. Inequalities for the Bessel function $I_n(x)$ .	287
Moyal, J. E., see Kendall, D. G.	
Northcott, D. G., and Rees, D. Principal systems . . . . .	119

<b>Olubummo, A.</b> The Laplace-Stieltjes transform of an increasing vector-valued function . . . . .	97
<b>O'Shea, S.</b> Note on an integrability theorem for sine series . . . . .	279
<b>Parsons, D. H.</b> Invariance of the rank of a partial differential equation of the second order, under contact transformation . . . . .	112
<b>Patterson, E. M.</b> On right-multiplication algebras . . . . .	260
<b>Rado, R.,</b> see <b>Mirsky, L.</b>	
<b>Rees, D.,</b> see <b>Northcott, D. G.</b>	
<b>Ramanujan, M. S.</b> On Hausdorff and quasi-Hausdorff methods of summability . . . . .	197
<b>Rayner, F. J.</b> Hensel's lemma . . . . .	307
<b>Sears, D. B.</b> Integral transforms over certain function spaces (I). . . . .	68
— Integral transforms over certain function spaces (II) . . . . .	295
<b>Taylor, R. L.,</b> see <b>Cobbe, Anne P.</b>	
<b>Titchmarsh, E. C.</b> On the convergence of eigenfunction expansions (II) . . . . .	236
<b>Verblunsky, S.</b> On a class of integral functions . . . . .	312
<b>Weston, J. D.</b> Functions of bounded variation in topological vector spaces . . . . .	108
<b>Wintner, A.</b> A note on Mathieu's functions . . . . .	143
